

## TALK COMPROMISE ON PRIMARY BILL

Senate and Assembly Are  
Likely To Agree on  
a Measure.

## TO RESTORE HARMONY

Three Cornered Poison Bottle  
Bill Without Red Color,  
Pretty Sure To Pass.

## DATE FOR AN ADJOURNMENT

Madison, Wis., April 20.—The Hagemer substitute primary election bill passed by the senate, which has been in the hands of the assembly committee on privileges all this week, will be reported Monday evening with an amendment which will apply the primary system to members of the legislature and municipal officers as well as county officers. It will then be made special order for Tuesday evening, the debate to close Wednesday evening, when the vote will be taken in the assembly. This at least is the program now laid out.

Talk is growing, however, of a compromise which will settle the trouble which has waged all through the session over the bill and restore the harmony which has been shattered by the feeling engendered over the bill, although on the surface the contest all along has been a good natured one.

Compromise Is In Doubt.  
What this compromise will be or whether it will be actually accomplished, are still indefinite. The friends of the Stevens bill say they will accept nothing which will do away with the application of the primary system to all offices below members of the legislature.

The stalwarts are not ready to say what they will concede, but it may develop that the compromise may be reached by the submission of the bill as above outlined to a vote of the people for approval. The friends of the bill claim enough votes to carry the expected committee amendments through the lower house by a larger majority than they had for the Stevens substitute, but this is not conceded by the opposition. If it is carried there, it will throw the issue back on the senate, which last week defeated a similar amendment. In case this happens over again, a conference committee from the two houses will result, and it may be that the talk of compromise may be reached in this way.

Three Cornered Poison Bottle.  
A compromise has been arrived at on the three-cornered poison bottle bill, against which the druggists of the state have been putting up a vigorous fight, and it is believed the bill will at last become a law. The bill originally provided that in addition to being three cornered, the bottles must be red. This appeared to affect the druggists to the same degree that the shaking of a rag of the same color does an obstreperous bull, and it is said that the elimination will satisfy them. Mr. Hall secured postponement of action on the bill, and an amendment will probably be

offered early next week which will cut out the color line, and will also provide that powders and tablets containing poisons must be kept in triangular boxes.

Railway Taxation Bill.  
The railway taxation bill, increasing the rate for the big roads from 4 to 5½ per cent, has a chance to pass the assembly notwithstanding the majority report of four to five against it by the committee on assessment and collection of taxes. The minority report submitted Wednesday by Messrs. Hall, Stevens and Frost, with figures to show that at the same rate is paid over by other property, the railroads should pay something like \$300 annually, was a strong argument which is having effect.

Date for Adjournment.  
The date for final adjournment is still unfixed by either house. The senate reconsidered its vote passing the resolution making the date May 4, after refusing to amend it by fixing May 11, and put the matter over until Tuesday. No one expects that the work could be finished by May 4, which would give only two more weeks, with only a week and a half of actual work, as business must be closed two days before adjournment to give the governor a chance to pass on bills. It is doubtful if it can be done in three weeks, but there is a strong opposition to a date later than May 11.

## BIG MARSHES ARE BURNING.

Fire Near Dousman Threatens a Number of Houses.

Dousman, Wis., April 20.—The large marsh, five miles southwest of this city, is on fire. The blaze extends along a mile for several miles and a large force of men are out fighting the blaze which threatens several farm houses.

## WIFE TO PROTECT HER GOOD NAME

Mrs. Hardin Wants Letter in Which  
It Is Alleged Her Husband Said  
She Was Untrue

St. Joseph, Mo., April 20.—Notice has been served on the officials of the German American bank here by the attorneys of Ernest V. Hardin, wife of the cashier who recently disappeared, that unless the bank this afternoon surrendered the letter in which Hardin says he left town because his wife was untrue to him, a suit for twenty-five thousand dollars damages would be commenced. She also demands that the directors of the bank make public that she is in no way responsible for Hardin's absence. Hardin was heard from a few days ago in Salt Lake enroute for Hawaii. The bank says that his accounts are all right.

## Found Dead on Top of Train.

Hamilton, O., April 20.—The body of brakeman Frank D. Lamb was found on top of a Cincinnati, Hamilton and Indianapolis train when it reached Hamilton. The head was crushed to a pulp. Coroner Sharkey says he may either have struck a bridge or have been murdered by tramps.

Ready for Wireless Telegraphy.  
Pierre, S. D., April 20.—Articles of incorporation have been filed at the state capital for the Universal Wireless Telegraph company, with a capital of \$20,000,000. The incorporators are James N. Huston, Thomas B. Bishop and L. C. Smith.

## WILL ERECT A \$50,000 CITY HALL; COUNCIL APPROPRIATES \$70,000

East Side Gets the Library and the West Side the  
City Building—An Era of Prosperity  
Opened Up for Janesville.

Seventy thousand dollars was the amount appropriated by the council last evening for the purchase of a public library site and for the purchase of a site and the building of a new city hall.

The special committee appointed by the mayor and to whom was referred the report the library board settled the question of East and West Sides, by appropriating twenty thousand to the East Side and fifty thousand to the West.

They have taken a decided stand in the matter and the city will now have a city building that has been a crying necessity for years, and one that can be pointed to with pride when visiting municipal officers are in the city.

Janesville has entered upon an era of business prosperity and the city fathers believe that the city should keep its improvements on a par with those made by private individuals. That they have made a move in the right direction is not disputed by anyone and are to be complimented on the way that this question of East and West Sides was settled.

Council Called to Order.  
Mayor Richardson called the council to order and a full board of al-

dermen were present when the roll was called. The mayor read his annual message which contained many good suggestions and called for some radical reforms. It will be found in another column.

On motion of Alderman Hutchinson the rules of the old council were adopted as the rules of the new and the first regular meeting was set for April 29 and then every two weeks thereafter.

On motion of Alderman Fifield the clerk was instructed to cast the ballot of the council for H. S. Gilkey for president of the council for the ensuing year.

On motion of Alderman Kothman the council proceeded to ballot for the election of street commissioner.

Before the vote was taken the clerk read a communication from P. A. McGuire offering to do the work of street commissioner for \$500 a year and furnish a horse and buggy free of charge to the city.

The clerk also read another communication signed by seventy-one property owners asking that Miles Cox be appointed.

While the tellers were collecting the ballots the mayor took the oppor-

## FURIOUS SNOW AND SLEET STORM. IS RAGING IN THE OHIO VALLEY

Cleveland Buried Under the "Beautiful"—West Virginia, Kentucky and Tennessee Also Suffer--  
Rivers Are Swollen Over the Banks.

Cleveland, O., April 20.—Whisked along at the rate of fifty miles an hour, a storm of snow and sleet blew into the Ohio valley late last night, knocking down telegraph and telephone lines, blocking street car lines and burying streets beneath a foot of snow and slush. This morning this city is almost cut off from outside communication. Many horses were killed by coming in contact with live wires buried beneath the slush. On Lake Erie huge waves impeded navigation, arriving steamers reporting a rough experience.

Chicago, April 20.—Business on the board of trade was almost at a standstill this morning. A terrific wind, snow, and sleet storm raging in the eastern states cut communication with the New York and London markets. No quotations have been received and none sent out. Railroads report no interruptions of traffic.

## GEORGE BISHOP IS GIVEN THE PLACE

Member of Board of Control Will Take  
Charge of the Green Bay  
Reformatory.

Madison, Wis., April 20.—George W. Bishop of Rhinelander, member of the state board of control, will take charge temporarily of the intermediate reformatory at Green Bay, pending the selection of a successor to Superintendent Heg, Judge W. P. Lyon, president of the state board of control said last night, while it had not been formally decided, it was the understanding among members of the board that M. Bishop would take charge of the reformatory until a superintendent had been selected. It was at Judge Lyon's suggestion that Mr. Bishop was tacitly selected for the place. Some building at the reformatory this summer and Mr. Bishop was thought to be the best fitted to look to the work. If Mr. Bishop tires of the position before it is filled some other member of the board will relieve him.

## Big Pay for Finger Tip.

New York, April 20.—A jury in the Supreme Court gave a \$5000 verdict to Daniel Jonas, a boy who lost one-sixteenth of an inch from the tip of his index finger while running a machine in Benjamin Hollander's factory. Hollander pleaded negligence on Jonas' part, but the boy claimed that the machine was out of order.

## GEORGE BISHOP MADE PRESIDENT; ENDEAVORERS MEET AT BELOIT

An Enthusiastic Convention Which Will Continue  
Over Sunday—All Cities and Towns in District  
Represented—Tomorrow's Program.

Beloit, Wis., April 20.—The business meeting of the Christian Endeavor convention now in session in this city, was held this morning and the following officers elected for the ensuing year:

President—George Bishop, Beloit.  
Vice President—Rev. S. P. Wilder, Delavan.  
Secretary—Miss Nettie Harrington, Janesville.

Treasurer—Harry Marks, Beloit.

The convention is an enthusiastic one and is largely attended. The roll call this morning showed 139 delegates present, nearly all the cities and towns in the district being represented. Janesville sends by far the largest delegation and the representatives from that city have a large part in the program. Delegates are coming in on every train and a large number are expected just for the Sunday services.

The convention is being held according to the program, the opening session having been held last evening at the Presbyterian church. The address of welcome were given by L. W. Thompson in behalf of the business men and by Rev. George R. Leavitt, D. D., in behalf of the churches of Beloit. C. Burnell Olds of Clinton, responded for the district society. The address of the evening was given by Rev. Albert Haupt of Watertown his subject being "Missions as a Necessity in the Home." The Beloit ladies' quartet furnished some excellent music.

This morning was devoted almost entirely to the business of the convention, the officers' and societies' reports, the election of officers and the conferences of committees. The business session was preceded by a

## KILLED HIS WIFE AND THEN HIMSELF.

John Gillen a Chicago Lawyer Com-  
mits a Horrible Crime on  
the Street Today.

Chicago, Ill., April 20.—John Gillen, an attorney, aged 25, shortly after noon today shot and killed his wife, a beautiful young woman to whom he had been married only a few months and then shot himself through the head and lies dying in a hospital.

Mrs. Gillen was the daughter of a wealthy manufacturer and married the lawyer against the parents' will. Shortly after the wedding she was kidnapped and held prisoner at the home of her relatives. Gillen secured her release by a hebeus corpus.

Later the couple received forgiveness. Recently the young woman returned home and to Gillen's demands that she live with him she declined saying that she was afraid of her life.

Today the couple met in Lake street, Gillen grabbed her wrists, pushed her away and it is supposed upon again receiving a refusal, drew his pistol and fired the fatal shots.

## Was Friend of Kit Carson.

Mattoon, Ill., April 20.—W. B. Kennedy, a prominent resident of Humboldt, north of this city, is dead, aged 83 years. He was a veteran of the Mexican and civil wars.

He was a personal friend and companion of Kit Carson, the famous scout and shared many of the latter's thrilling experiences on the plains.

## JOHN W. HINTON IS DEAD.

Milwaukee's Well-Known Philanthropist and Tariff Writer.  
Milwaukee, Wis., April 20.—John W. Hinton, the well-known philanthropist and old resident of Milwaukee, whose writings on the subject of the tariff and protection had given him a national reputation, died last evening at his home, 436 Cass street, aged 84 years.

A complication of diseases attendant upon old age was responsible for Mr. Hinton's death, for four months his condition having been so serious that the end was not unexpected. He passed away quietly at 9:30 o'clock, surrounded by members of the family including his aged wife, who herself has been in feeble health, largely due to her husband's illness.

## Uruguay to Admit Spanish Exiles.

Montevideo, Uruguay, April 20.—The government has decided to permit Spaniards who have come from Spain to establish themselves in Uruguay.

## THREE RURAL MAILS WILL BE STARTED.

They Will Begin at Brodhead On May  
15—Carriers Who Will  
Serve the Routes.

Orfordville, April 20.—Three new rural mail routes will start from Brodhead on May 15th. One of them will run through Avon and the postoffice at that village will be discontinued. Mrs. Lane, who has been the mail carrier to Avon for the past ten years will have charge of the new route. Mrs. Lane has never missed a day in her long service as mail carrier. W. D. Ames will be the carrier on the route which is to be established into Jordan Prairie, Green county and Elmer Enright will carry the route to Spring Grove, Green county.

## WILL DO THE FAIR THING BY BELOIT

Mr. Clough Will Accept a Franchise on  
the Conditions of His Latest  
Proposition.

Word has been received from H. H. Clough stating that he would be in Beloit Monday morning to confer with the council in regard to the franchise for the Beloit, Delavan Lake and Janesville road. It is understood that one Janesville capitalist (?) has been in Beloit lately looking over the ground and advising the people not to grant the interurban road a franchise unless the owners would furnish power to an urban road free of cost. They cite the fact that Mr. Clough offered to furnish power to the Janesville line if they would give him the Main street track and if he could do it in Janesville he could do it in Beloit.

The same capitalist has been getting figures from Supt. Hurd on the cost of equipping and maintaining four miles of road in a town of about eleven thousand. This is about Beloit's population and there might be a method in this capitalist's scheme to get free power for an urban road. As far as Beloit is concerned with her franchise Mr. Clough would not grant any such a concession for the right to run through their city. There are some reasons why it would be almost as well to go around the city, when the freight carrying proposition is concerned. However, Mr. Clough is willing to grant any reasonable conditions and is willing to do the fair thing by Beloit.

The annual meeting of the alumni of the high school will be held next Tuesday evening at 7 o'clock at the high school building. All members are requested to be present.

## HE THINKS THE CUBANS WILL YIELD

President Schurman of Cornell College, Has Talked  
with Their Leaders—Will Be No Trouble.

Ithaca, N. Y., April 20.—President Jacob Gould Schurman of Cornell university has arrived in Ithaca after a two weeks' visit in Cuba. Cornell's president states that he was agreeably surprised to find that the attitude of the Cubans was far friendlier toward the American government than he would have judged from reading the newspaper articles on the subject. He anticipates not the slightest difficulty between the Cubans and the Americans, and says that when the reasons for the American demands are fully understood the Cubans will accept the Platt amendment. Upon arriving in America President Schurman conferred with President McKinley relative to Cuban affairs. Dr. Schurman gave out the following statement: "While in Cuba I visited the Western provinces of Havana and Pinar del Rio, and in the East the provinces of Matanzas and Santa Clara. I talked with rich men and poor men, with whites and with blacks, and found that the feeling of the common people toward the United States is far from being as hostile as Northern papers have pictured it. Not only did I meet

## HITS MAN WHEN HE SHOOTS

Binangonan, Luzon, P. I., January 9.  
Editor of the Gazette:—I will try and tell you a little more of the fortunes of my company and myself. Putman is still cook and both of us well and hearty as ever. We were quartered in the barracks near Manila for two weeks and were allowed to inspect the city at our leisure. I found it a constant changing thing of interest for me to watch the inhabitants, for every nationality on earth is here represented. The things of interest to a stranger are too numerous to describe so I will not try to. The street cars are about ten feet long and will carry about twelve persons by crowding. They are drawn by the smallest of native ponies and are of little service to an American, as he can go faster on foot, but are used almost entirely by the natives, who are too indolent to walk.

Put on Kahki Suits.  
Here in Manila we discarded our blue clothes which were packed and stored in boxes to await our return to the United States and were issued Kahki suits which were the most suitable for a hot climate. We received our pay in Manila, so had a fair chance to enjoy life.

On October 2 we boarded the Transport Gawan an old English passenger boat and sailed around the southern end of the island, then north to a point straight across from the island of Manila. We expected to have a brisk skirmish to capture this place, but the six inch shells from the gunboat Yorktown, which accompanied us, had scared every insurgent out of the city, so we marched in and took the place without firing a shot.

Tired and Hungry.  
When we arrived here about 9 p. m. on October 9, we were tired, hungry and wet, having to wade through about one-half mile of swamp with water from waist deep to over our heads. We were then kept busy for two weeks hauling rations and supplies, as our only pack train consisted of about a dozen Carabou or water buffalo sleds, and as many pack ponies, and the sleds could only make two trips a day on account of the fierce heat of the sun, which the Carabous cannot stand as they seem to be a kind of water animal. We at last got everything up and starting to settling our camp and doing duty again. We fared very well until another boat came in on November 24th, then it was pack rations again, but with much better facilities and only a third as far, having discovered a new landing much more easy of access.

Two Small Engagements.  
We have had two small engagements, but have not even had a man wounded. We succeeded in killing close to fifty insurgents. We are

## Just Between Ourselves

In the spring a young man's fancy may lightly turn to thoughts of love but next to house cleaning in a woman's thoughts is the planting of flower seeds. In many a home today the most frequently consulted work of literature is the highly colored catalogue which the florist sends out to deceive the fair sex with its alluring illustrations of impossible things. Mortal man never saw the flowers and fruit which are portrayed in the spring catalogues, but mortal woman will never cease to hope that some day her pansies will be as large as saucers and her porch will be covered with vines on which thousands of starry blossoms will effectually conceal the foliage from the dawning of May until the melancholy days are come.

It may perhaps be a timely suggestion that well disposed woman shall temper her gardening zeal with a little wisdom and a grain of regard for general artistic effect. In this connection it has seemed well worth while to me to repeat some of the suggestions which were made by Warren Manning, the landscape artist, of Boston, at the meeting of the Twilight Club last Tuesday evening. There are many who were not privileged to hear Mr. Manning and the fact that he is not an eloquent public speaker may have detracted somewhat from the impression which his suggestions should have made on all who heard him.

With his advice concerning movements which the city should make to secure possession of the river bank and desirable bits of landscape woman can do little save exert the quiet influence for which she has become world renowned and which I sometimes think is overestimated as a sop to her vanity to keep her quiet and contented where she will not work havoc with man's favorite methods of handling public affairs. Be that as it may, in the home woman can do much and so upon her shoulders, in a large measure, rests the responsibility of beautifying the city. Mr. Manning said that the entire city should be transformed into a park and every house should be made a part of the landscape, a great work which must be carried out mostly by individual efforts.

Mr. Manning criticized Janesville houses as all being set out by themselves distinctly instead of being blended into the landscape by a judicious use of foliage. A mass of foliage along the line of the house, some shrubbery at its corners, or a trained vine will accomplish this at little expense. Open lawn centers should be presented, straight geometric lines should be avoided and shrubbery should be massed and not isolated.

In my opinion one of the most valuable suggestions made by Mr. Manning concerned the shutting off of back yards from public view by shrubbery. He thought it only a fair concession to leave front lawns open for the enjoyment of the public eye.

well-trained vine will accomplish this added dignity to the roadway. But he deplored, as I do, the custom of leaving one's entire yard open to public view so that one cannot step out of doors without being on parade. Americans would do well to adopt the idea of the English gardens for their back yards and then to follow the good English custom of living more out of doors during the summer. This is impossible with open yards where when one steps out of doors he is practically on the street. According to Mr. Manning architects and landscape gardeners are coming to work together, the architect appreciating the value of the setting for the building which he designs.

As a suggestion for the improvement near the depots Mr. Manning stated that if the C. & N. W. park was outlined with well shaped trees it would hide much of the inartistic view from the trains. He also spoke of the great and general interest which is being taken in improving factory grounds and encouraging the employees to surround their homes with foliage. At Ishpeming where the population is made up largely of miners, presumably of a low grade of intelligence, prizes are offered annually for the best garden. In the well known instance of factory improvements at Dayton, Ohio, an interesting phase of the work is that it was a business venture pure and simple and best of all, it paid and is paying all the time.

Many people look upon beauty as impractical and not essential. That is one of the faults of the newness of our country but the time has come in our prosperity when we can afford to give attention to something besides the spirit of commercialism. Even from an utilitarian standpoint, however, it pays to cultivate the beautiful. A man pays more for a beautiful house than an unsightly one, a handsome house will bring a better price than an inartistic one and by the same rule a beautified city is increased in value in that it appeals most strongly to new comers.

This movement for town improvement is wide spread. The Chicago Tribune is giving impetus to the work in the metropolis by offering prizes to stimulate interest in flower growing. At Waukesha, James C. Walker, manager of the Fountain house has offered two prizes for the same purpose. Supt. Mayne has offered prizes as an incentive to school yard improvements.

Janesville derives many advantages from its picturesque situation and comparatively little effort is needed to make it one of the prettiest cities in Wisconsin. Why not join in the procession and see what can be accomplished by harmonious and united efforts during the coming summer, not for prizes but for the general good work brings and for the reward which is sure to follow in the increase of personal pleasure.

## MAYOR OUTLINES SEWERAGE PLAN

## Also Takes a Stand on Policy of Street Improvements—Annual Address to Council.

In the annual address of Mayor Victor P. Richardson, delivered to the council last night, he finds satisfaction in the good condition of the general affairs of the city. The fire and water departments, streets, schools and other departments are in first class shape.

He touched on the library site question briefly, advising a quick settlement of the matter and concluded his address with a showing of figures from the city treasurer's report and a suggestion of better account keeping in the office of city clerk and city treasurer.

In speaking of the future and in making recommendations the mayor said:

## Some Recommendations.

At the recent election the question of putting in a system of sewerage was voted upon and carried in the affirmative by a large majority. It now remains for the council to take the necessary steps to carry out the wishes of the people in this respect.

The first steps necessary under the statutes is to adopt a general plan of the minor details of which can be filled in afterwards. Then the city must be divided into sewer districts. After which and before any work is done the council should decide as to what system shall be adopted in paying for sewers. Whether they shall be paid for entirely by the property in the sewer district or paid for in whole or in part by a general tax on all property in the city.

The forming of plans will depend largely on the points selected for terminating sewers. At present I am of the opinion that the sewers should run direct to the river by the most economical way. I believe that the current of the river is sufficient to carry off all sewage and that there will be no bad effects from such terminals. The cost will certainly be much less than under any other plan. Such sewers can be constructed as to connect with a large sewer existing at any time in the future. Many sewers such as I suggest have already been put in by property owners in different parts of the city and could probably be made a part of the general system. This would protect those who have paid for private sewers. As to the method of paying for such sewers I believe that they should be paid for by the property in the sewer district in accordance with a plan somewhat similar to that already adopted in paying for street improvements. This will obviate the necessity for a large issue of bonds on the part of the city and will permit of the construction of the system gradually and as needed.

The only issue of importance raised at the re-

cent election was as to street improvements. The opposition candidate for mayor declared through the public press that he favored permanent street improvements only when the property owners on the street had declared themselves as favorable to such improvements, while it was generally known that I was in favor of such improvements wherever the council considered them necessary. I have taken this stand not because of any disregard of the wishes of property owners for they should be always considered where they do not interfere with the welfare of the city, but because it is well known that we can secure no improvement if it depends on the unanimous action of those who pay the cost. The result of the election might be considered as a hearty endorsement of this policy. During the past two years the work of street improvement has been fairly well started and it now remains for the council to continue the work along the lines laid down, and within a few years all the principal streets of the city will be in a condition that will compare favorably with the streets of other cities of the size of Janesville. Let the large part of the ward funds be used for permanent improvements and as little as necessary be spent for repairs.

In this connection I wish to recommend a change which though somewhat radical will, I believe, give general satisfaction. I would recommend that the city engineer be also elected street commissioner. Let the two offices be combined. This will secure the services of a competent man to oversee street work, and will result in a saving to the city. As the election of the street commissioner is in the hands of the council, you, gentlemen, have it in your power to bring about this change which I believe to be in the line of reform. Let work on the sewer system be carried on in connection with the street work, and when streets are to be improved and sewers are necessary let the sewers be put in first.

## Name Council Committee.

After the reading of the message the mayor made his annual announcement of committees which follow:

## THANKFUL TO MRS. PINKHAM

Letters Proving Positively that there is No Medicine for Woman's Ills Equal to Lydia E. Pinkham's Vegetable Compound.

MRS. ANNIE THOMPSON

(ALL LETTERS ARE PUBLISHED BY SPECIAL PERMISSION)

"I cannot say enough in regard to Lydia E. Pinkham's Vegetable Compound. It has done me more good than all the doctors. I have been troubled with female weakness in its worst form for about ten years. I had leucorrhoea and was so weak that I could not do my housework."

I also had falling of the womb and inflammation of the womb and ovaries, and at menstrual periods I suffered terribly. At times my back would ache very hard. I could not lift anything or do any heavy work; was not able to stand on my feet long at a time. My husband spent hundreds of dollars for doctors but they did me no good. My husband's sister wrote what the Vegetable Compound had done for her, and wanted me to try it, but I did not then think it would do me any good. After a time, I concluded to try it, and I can truly say it does all that is claimed for it. Ten bottles of the Vegetable Compound and seven packages of Sanative Wash have made a new woman of me. I have had no womb trouble since taking the fifth bottle. I weigh more than I have in years; can do all my own housework, sleep well, have a good appetite, and now feel that life is worth living. I owe all to Lydia E. Pinkham's Vegetable Compound. I feel that it has saved my life and would not be without it for anything. I am always glad to recommend it to all my sex, for I know if they will follow Mrs. Pinkham's directions, they will be cured."

Gratefully yours, MRS. ANNIE THOMPSON, South Hot Springs, Ark.

## CHANGE OF LIFE.

"I was taken sick five years ago with 'The Grippe,' and had a relapse and was given up by the doctor and my friends. Change of Life began to work on me. I flowed very badly until a year ago, then my stomach and lungs got so bad, I suffered terribly; the blood went up in my lungs and stomach, and I vomited it up. I could not eat scarcely anything. I cannot tell what I suffered with my head. My husband got me a bottle of Lydia E. Pinkham's Vegetable Compound, and before I had taken half of it I began to improve, and to-day I am another woman. Mrs. Pinkham's medicine has saved my life. I cannot praise it enough."

A. A. BROWN, BIRMINGHAM, ALA.

## PROFUSE PERIODS.

"I commenced taking Lydia E. Pinkham's Vegetable Compound about 8 months ago, and cannot express the wonderful good it has done me. Menstruations were so profuse as to leave me very weak for some time after. Was also troubled with leucorrhoea, tired feeling, bearing down sensation, pain across the back and thighs. I felt as though there was a heavy weight in my stomach all the time. I have taken two bottles of the medicine, and now have better health than I have had for four years."

MRS. LIZZIE DICKSON HODGE, A-alon, Ohio.

## AMUSEMENT NOTES

Anna Held the clever comedienne, comes to the Myers Grand on Friday, April 26, presenting her musical comedy, "Papa's Wife." The original company and the same elaborate production which has been used by Miss Held for the past season will be employed here. A brief outline of the story is as follows:

Papa's Wife, is Anna, a convent girl who, while on her bridal tour, visits the convent and by a series of complications is mistaken for a burlesque "queen" with whom "papa" had been infatuated while a gay widower. The innocent convent girl rapidly gains knowledge of the world, including a champagne supper, at which she first tastes wine and feels its effects. It is in this scene that Miss Held displays her powers of acting as she gives a deft portrayal of a woman under the influence of wine and sings the song of "The Colonel" in French, the only song sung in French. The fun of the play is furnished, and in abundance, too, by Charles A. Bigelow in the part of Professor Celestin, a music teacher who has a leaning toward the burlesque in musical compositions and in actresses. He has several good songs, none of them more laugh-producing than the "Purely Private Affair" in the first act. In this act a striking climax is made by the introduction of Miss Held on the front seat of a motor cycle, which spins about the stage as she sings appropriate music. Others in the principal parts are as papa and the son, Aristide, who becomes the husband of Anna by a strange series of circumstances, a double role, Mr. Max Figman; George Marion, as the Major, Papa's rival; Dan Collier, as Tonia, as Coralis, the burlesque queen, and Miss Crissie Carlyle, as the convent governess. Besides these are a host of pretty girls in the chorus.

Fred Rider's Moulin Rouge will be seen at the Grand Opera House to-night. This magnificent production is a typical French extravaganza burlesque. The first part of the entertainment is a well written sketch, entitled "The Woldorf Castoria," in which there are many laughable and entertaining situations, pretty ballet comes the olio made up of the following specialties: Robert Conwell, eccentric back dancer, Mlle Occatee, singing and dancing comedienne; the Behan Trio, novelty and comedy; singing and musical artists; The Colton Comedy Duo; and Morrissey and Belmont, sketch artists in their laughable burlesque entitled, "The Battle of Santiago," which is a take off on the disturbance that occurred at Santiago when the Spanish tramped on Uncle Sam's corns during the closing years of the last century. After the olio comes the closing burlesque entitled "The Wayside Inn," which concludes the program, and in which the entire company appears and some gorgeous costumes are in evidence.

At last negotiations that have been pending for several days between Manager Myers and Stuart Robson's manager, Daniel V. Arthur, have been settled, and it is an assured fact that America's foremost comedian will visit this city. The date that has been decided upon is May 3, Friday, when the Grand opera house will undoubtedly be crowded with one of the largest and most select audiences that have assembled here this season. It is a pleasure to announce that for his engagement in this city, Mr. Robson will present "She Stoops to Conquer," the famous comedy from the pen of Oliver Goldsmith. Mr. Robson's first appearance in this play was as far back as 1858 in the Holliday street theatre, Baltimore.

## Magnetic Healing.

A Health Restoring Treatment.

## Prof. Funk's Success

In curing disease is evidenced by the steadily increasing demand for his services. Nature's powers of healing proves a blessing to chronic sufferers and brings health and strength to the weak. Many have given testimony of the benefit received and cheerfully tell what this mode of treatment has done for them. Will mention that of a lady over fifty years old. Has had stomach and bowel trouble and constipation for many years. Her head ached almost constantly, due to chronic gastritis; her bowels did not act without the daily use of purgatives. She says

"I am glad to say that I have taken Magnetic Treatment by Prof. Funk. I have taken but three treatments and can honestly say I have had more relief from headache and pain in my stomach since I commenced treatments, than I have had from all the medicine I have taken for years. I cheerfully recommend Prof. Funk's method to all who have been suffering as I have been."

Mrs. S. HERMAN KREBS, Janesville, Wis.

Prof. Funk treats all manner of disease, acute or chronic, without the use of drugs, surgery or mechanical appliances of any kind. Investigate this method of healing, it will cost you nothing and may mean health and strength for you. He treats all honestly, if he can not help you he tells you so and gives every one the benefit of examination and consultation absolutely free. There is nothing mysterious or supernatural about this method and he is always willing and glad to explain Magnetic Healing to any one interested and extends to the suffering a cordial invitation to investigate his method of healing. ## SOUND TO THE CORE.

An old gentleman in New England State, some years ago, was very particular in packing his apple crop, to see that every apple was sound. In each barrel he put his name signed to a little note, requesting the purchaser to let him know how the fruit opened. A few weeks later he received a letter from England, saying, "Your apples are sound to the core, send me the winter crop, and let me know when you are ready to market your next year's crop."

The old gentleman was rewarded simply because he applied the principle of a great truth, to the business of everyday life.

The sham and the real look so much alike, that a casual glance or chance acquaintance, is frequently very deceptive.

With apples, very much depends upon which end of the barrel you open, but more on the soundness of the fruit itself.

One of the quaint sentences on Uncle Eben Holden's tomb stone was "Never lied in a horse trade." For a man who enjoyed a "horse trade" as much as the old gentleman was reputed to be the one sentence spoke at whole volume for honesty.

That sleek looking horse that attracts your eye, and induces you to purchase at a fancy price, is a good looking, and high stepper, but before you have had him a month, you find that he is wind broken and generally used up.

That mining investment that looked so flattering with its choice specimens and exhaustive prospects, turned out to be a salted mine and the stock not worth the paper on which it was printed.

That gold brick is a fortune in itself, but after you buy it, you turn away with disgust, a sadder but a wiser man.

And so all through the world of material things, the sham and the real, the sound and the unsound, are so closely allied, that you separate them with great difficulty.

If the realm of shams did not extend beyond the animal, and material kingdom, this world would be a good deal of a paradise; but unfortunately humanity is badly tainted with the same disorder, and you sometimes turn away from your best friend with the feeling that he is not "sound to the core."

There is an army of men and women walking up and down the earth wearing pleasant smiles and tailor made suits, that are walking sepulchres of mental and moral depravity. They pass on the streets and in society for the true metal, but like the old bell with the oil on the rim, they ring false.

Get up close to them and you soon discover shallow intellects, depraved minds, and corrupt hearts.

Here is a girl that has all the symptoms of being a lady. She is neat in appearance, greets you with a pleasant word, is courteous and polite, and attracts your attention because of a handsome face.

Follow her home and study her character in the closer relation of life. You soon discover that her mind is a blank and her company manners thrown aside before she crosses the threshold.

The mother is good enough to wash the dishes, darn the stockings and do the baking. The father is all right as a bread winner, but hardly good enough to command the respect of the twentieth century daughter and so while the old lady durns, and the old gentleman reads, the girl in disabill attire and stocking out at the heel, spends the evening between a novel and a complaint.

Try to talk with her and you find that her mind is a store house of rubbish, with a smattering of music sufficiently large to furnish plenty of discord. Attempt to get down into her heart and you find that it is destitute of natural affection, with aspirations that never reach beyond a conquest.

The girl of the period, not sound to the core.

Here is a boy who takes in all the parties on two dollars a week. He owns a \$50 dress suit, or will when he pays for it. He has an ambition to keep up with the procession, and succeeds beyond his expectations while his money and credit lasts.

The old gentleman told him when he left home to go slow, be honest, and live within his income, but the old man is an old fogey, a good many years behind the times. His career is short but brilliant. All on the outside, not sound at the core.

This double life, the sham and the real is not confined to young people

in fact, about all they know about it is inherited or cultivated, as a rule at short range.

Men are not difficult to find who are all devoted to their wives in society but hardly recognize them in the home.

Women are about as plenty who are models of wifely devotion in public, but holy terrors as every day companions.

The business world is well represented with men whose principle ambition is to get the start of a customer in a trade, and yet who never weary of telling you how honest they are.

The church is not free from the shams of life. Too many people wear their piety as a loose garment. It doesn't show wear to any great extent for Sunday is the only day that it seems much service.

People who are long on profession but short on possessions. Every church has representatives of this class, and the world brands them with the very appropriate title of "hypocrites."

Jesus found them in the temple a good many years ago, and he called them "whited sepulchres" full of dead men's bones, and said to them with scathing denunciation: "Ye serpents, ye generation of vipers, how can ye escape the damnation of hell?"

The master had no use for the shams of life, and the world has as little use today.

The best heritage that any young man or woman takes into life, is the heritage of absolute honesty.

The capital of character is worth more to carry into the years, and down to the shores of time, than all the wealth that can be accumulated. "There goes an honest man," is the choicest eulogy ever pronounced upon human life.

It pays to be "sound to the core," it is profitable here, and of priceless value hereafter.

## A SUGGESTION.

The Gazette may not be competent to give advice, but the sentiments of a recent editorial on the city schools, is so universally endorsed, that the paper feels warranted in offering a suggestion.

Professor Mayne was urged to stay by some members of the school board, and fight out the proposition of freedom in selecting his board of teachers. He said, "No, I won't fight as long as I can run."

That's characteristic of the man, and so he goes to an appointment where freedom is guaranteed, without the fight.

It is a little humiliating to the taxpayers, and patrons of the schools to feel that any superintendent is asked to fight for a privilege that any intelligent board should be willing to grant as a matter of simple justice.

The school board has made a wise choice in selecting Professor Buell to succeed Mr. Mayne, and their action will be generally approved. Mr. Buell needs no introduction to Janesville people or the city schools, but his work will be handicapped just as seriously as Mr. Mayne's has been unless he is made the superintendent in fact, as well as in name.

No school board, however competent, is qualified to select teachers. It is not elected for that purpose, and while the custom has been moss backed with age, it should have been abolished long ago.

The present board can make a record for itself by abandoning the pernicious practice, and saying to Mr. Buell, "Select your own helpers and we will hold you responsible for the work."

Public sentiment will endorse the reform, and the schools will take a forward stride that will be a revelation.

The schools are the most important factor in life. They are entitled to as intelligent government as is displayed in ordinary business, and this they do not receive under the present system. If there is any argument in favor of it, the public ought to know it, for there is every conceivable argument against it. Try a common sense plan for a year and watch results.

Porto Rico is struggling with an internal revenue tax, a new experience for the island, presenting many perplexing features. A tax on land, similar to the custom prevailing in this country, is one of the main features. The transition from Spanish bondage to American freedom is a revelation in many ways, and will require a little time to adjust conditions but results will warrant any temporary inconvenience. The people of Porto Rico have just commenced to live.

Judge Taft, the civil governor in the Philippines is rapidly bringing order out of chaos, and by the time congress convenes the distant islands will be in shape to handle intelligently. The president made a wise selection in choosing Judge Taft for this important work. He is the right man in the right place. By the way, President McKimley is not making many mistakes. Some of the men who have criticised him so severely, might do well to make a note of it.

While Chicago is entertaining the distinguished Russian anarchist, Berlin is entertaining a South American anarchist in a very different manner.

Cuba is soon to send a delegation to wait on the president, forgetting that the island has no government, and can't have until ability is demonstrated to govern. The delegates

will gain some valuable information and receive some good advice, so that the visit may be profitable so far as a bitter misunderstanding is concerned.

The great question seems to be, is Porto Rico the United States or is it property of the United States. A little distinction with a great difference.

Chicago is bound to beat New York some way. One of her merchants has cornered the old clothes market of London under the very nose of Morgan.

Mayor Patten of Evanston has a chance to get in Tom Johnson's class. He has been offered the services of a chief of police gratis.

Janesville is not so slow as our rivals would paint us. Our progressiveness is attracting attention in the metropolitan press.

It will be strange if the Kaiser cannot conjure up a case of "Les Majesty" against the Chinese.

J. J. Hill is still adding to his collection of railroads.

The czar is investigating mines at present. Not gold mines however.

## RACES TO SAVE WOMAN'S LIFE

The Giant Deutschland Must Catch the Majestic Era Trip.

New York, April 20.—With a handicap of twenty-four hours to overcome, the giant ocean greyhound Deutschland is racing with Death across the Atlantic in an effort to catch the Majestic before she touches her pier at Liverpool. A woman's life is the stake. Should the Deutschland fail, the news that will greet the Majestic on her arrival at Liverpool will undoubtedly cause the death of one of her passengers, Mrs. D. M. Sawyer. On the Deutschland is a broken-hearted father who is praying that he may be able to reach the pier at Liverpool and be the one to break to his wife the sad news of her son's death by drowning. Mrs. Sawyer is in poor health and the physicians say that if the news of her son's death is told her by another than her husband the shock will kill her.

On the Majestic, their son, a student at the Hotchkiss College in Lakeville, Conn., with his chum, George Inness, was drowned in Lake Wononago by the overturning of their canoe. He was at the pier Wednesday to see his mother set out for Europe. The Deutschland will touch at Plymouth and from there Mr. Sawyer will take a special train to Liverpool.

## Rejects Man at Altar.

Mansfield, O., April 20.—Just as the Rev. L. G. Bateman of this city was about to pronounce Mrs. Jennie Kline, a widow of Alliance, and George W. Sickinger, a wealthy farmer residing south of Mansfield, husband and wife, Mrs. Kline said: "I've changed my mind," and the ceremony was postponed forever. Four months ago, through a matrimonial advertisement, the pair formed an acquaintance. Sickinger called on Mrs. Kline once, and after correspondence Mrs. Kline, who is a dressmaker, packed up her household goods and came to Mansfield today to be married.

## Two Women Seek Death.

Camden, N. J., April 20.—Two women, one upbraided by her husband for grieving too much for her dead mother, and the other accused of over-indulgence in liquor, confided in each other and resolved to die at the same hour. Mrs. Mary Maginnis took morphine, but a doctor called by her husband saved her life. About the same time the husband of Mrs. Margaret Baird was awakened by the groans of his wife. She had taken carbolic acid. She was taken to a hospital, but it is thought cannot recover.

## Fishes That Live For Centuries.

There seems to be hardly a natural limit to the life of some kinds of fishes. There are in the royal aquarium in Russia several carp which are over 600 years old according to Professor Suets, and he believes that the ordinary carp lives to at least 500 years if not interfered with. Ordinarily goldfish have been known to live for 100 years. In the museum in Mannheim, Germany, is preserved the skeleton of a pike which was caught in 1497. It was nine feet long and weighed 850 pounds. In the gills was fixed a ring bearing this inscription in Greek, "I am the fish which was first of all put into this lake by the governor of the universe, Frederick II, the 5th of October, 1230." The pike was therefore at least 267 years old when caught.

## The Inhumanity of Man.

"Ah," the beautiful girl cried as she took the roll of manuscript that the hard looking old fellow with the glasses had handed back, "I don't believe you have any poetry in your soul!" "No," he replied looking at the waste basket, "I suppose I haven't, but if you need any in your business, you can find a lot of it in there."—Chicago Times-Herald.

## Supremely Realist.

"I wonder if there's any lazier occupation than fishing?" "Well, yes—looking at people fishing."—Brooklyn Life.

## The Force of the Future.

Liquid air is the force of the future. It is an explosive of a most dangerous kind. It may be used as an anesthetic. In a word, says Sir Walter Besant, it is another giant caught, imprisoned, and made to work the will of man. "I have not the least doubt," he continues, "that before many months are past liquid air will be captured by the inventor and used for the destruction of a whole army many miles distant by the hand of a drummer boy."

## JANESVILLE GIRLS TOOK THE HONORS

EURETTA KIMBALL AND LUCY BIGELOW IN FIRST PLACE.

They Will Compete in the District League Declamatory at Whitewater Next Friday Evening—An Immense Audience Packed the High School Building Last Night.

The Janesville High school carried off the honors at the league declamatory contest last evening. Misses Eurette Kimball and Lucy Bigelow, being the two representatives chosen to compete in the district contest at Whitewater next Friday evening. Alfred Arnold of Whitewater took third place and was chosen as the alternate. An immense and enthusiastic audience packed the high school auditorium last evening, it doubtless being the largest audience ever assembled in the room. The Whitewater delegation, gay with banners, strong lunged and good natured and ever ready with a school yell or the snatch of a song, numbered about 140 members and friends of the school and was accompanied by Supt. H. C. Buell. Supt. Converse's enthusiastic purple-bedecked aggregation from Beloit was about 100 strong and Principal Kling headed a delegation of about 60 people from Evansville but this delegation was not quite as conspicuous as the others owing to the fact that its school color is the same blue flaunted by the advocates of the Janesville High school.

Before and after the contest the delegations hurled their schools yells and blew horns defiantly in each others faces, but during the continuation of the program Supt. Mayne succeeded quite well in suppressing the enthusiasm. There was an element of restlessness, however, which he failed to reach and which was disturbing both to the contestants and to the audience. It was to be deplored as it was participated in so largely by Janesville people.

The music of the High School chorus, under the direction of W. F. Gaskins, was an enjoyable feature of the evening and the audience was delighted with the singing of "The Lost Chord" with the solo part beautifully rendered by Ray Ayres.

Supt. D. D. Mayne presided during the evening and the following was the program.

Vocal Selection.....  
High School Chorus.  
Declamation....."Fight with the Panther"  
Lydia Elliott, Evansville.  
Declamation....."The Sioux Chief's Daughter"  
Beryl Bell, Beloit.  
Declamation....."Dot"  
Ruby Bennett, Whitewater.  
Declamation....."How the La Rue Stakes Were Lost"  
Lucy Bigelow, Janesville.  
Declamation....."To the Lions"  
Thomas Mills, Beloit.  
Declamation....."Fränz"  
Hattie Decker, Janesville.  
Declamation....."Mr. Dooley on Football"  
Alfred Arnold, Whitewater.  
Declamation....."The Trial of Abner Barrow"  
Carl Monahan, Evansville.  
Vocal Selection.....  
High School Chorus.  
Declamation....."Helene Thaurer"  
Eurette Kimball, Janesville.  
Declamation....."The Lynching Party"  
Ray Potter, Evansville.  
Declamation....."The Soul of the Violin"  
Grace Rowe, Whitewater.  
Declamation....."The Touch in My Heart"  
Irene Frederica Hau, Beloit.

The judges were Professors Frank Exberger and Pyre of the University of Wisconsin, and Mr. Harper of the state department of public instruction. The table of their markings shows that they were well agreed upon the merits of all the contestants. Naturally, however, there was a diversity of opinion among the audience and while universally conceded that Misses Kimball and Bigelow were entitled to first places there was considerable dissatisfaction over the choice of the alternate. The general consensus of opinion seemed to be that the place belonged to Thomas Mills of Beloit or Carl Monahan of Evansville.

The Janesville representatives showed the advantages of superior training and while the majority of the contestants did well among the visiting delegations, the young men made a stronger fight for high position than the young ladies.

**Heimstreet Re-elected.**  
The Wisconsin Board of Pharmacy, which has just finished a four days' session at Sparta, re-elected E. B. Heimstreet of this city, secretary and treasurer. This being the annual meeting Secretary Heimstreet presented the work of the past year. Just 388 applicants took the examinations the past year. Of this number, 29 received licentiate or first grade and 63 second grade or assistant papers, 196 being rejected. Sixteen were registered without examination, coming from other states.

Nine cases have been in the courts, in which the law has been sustained in every case the fines amounting to \$450 being turned over to the school fund of the state.

Among the assistant certificates granted was one to Miss Maud Roethinger, of Baraboo, a former resident of this city.

**STORY ON THE LIBRARY SITE**  
A good story on the library site is going the rounds and is being repeated with much relish by the business men around town. The story goes that "Tim" O'Rourke was holding forth on the site question and loudly proclaiming himself in favor of the Dr. Woods' property. Among the group of men who were interested listeners was C. E. Bowles, who finally said, "What do you think of my site, Tim? Don't you think I have a good place?"

"An' ye have, Mr. Bowles," retorted Tim. "You've got a beautiful piece of property, but you see it's backed up against so many gin mills."

"I shouldn't think you would object to that, Tim. You've backed up against a good many yourself, haven't you?" said Mr. Bowles.

Quick as a flash came the answer, "Sure I have and be gory do ye think it has improved my looks any?"

Ladies having had occasion to pass along Emma street near the high school building within the last few days have registered a strong protest against the way the trees of the various householders along that thoroughfare are kept. The high winds have caused the trees to perform all kinds of strange antics and many have been the accidents to ladies' headwear in passing under them. One lady in particular had a fine imported creation of ostrich tips and chiffon whipped from her head and liberally soured in an adjacent mud puddle.—Honolulu Re-publican

## VARSITY TRACK TEAM

Wisconsin Beloit Meet in the Line City Today—Janesville Among the Athletes.

The track team of the University of Wisconsin passed through this city this morning on its way to Beloit to compete in the Wisconsin-Beloit track meet which is being held at Keep Athletic field this afternoon.

The Wisconsin team was accompanied by Coach Kilpatrick and Manager Leary and included A. K. Wheeler of this city and Senn, Chapman, Boverson, Hahn, Keachie, Bredsteen, Shule, Hughes Webster, Bishop and Captain McGowan. The track men are feeling sore over the loss of Cochens, who has been forced to give up athletics on account of his extra work. He was considered a sure point winner in the shot put in the big meet in June and Wisconsin could ill afford to lose him.

The Wisconsin athletes will return to Madison this evening.

## AGUINALDO IS FOR PEACE

Text of His Manifesto to the  
Filipinos.

PRESENTS CAUSE OF PEACE.

Urges the Insurgents to Submit to  
American Rule and Expresses Con-  
fidence in Good Faith of the United  
States—American Officials Pleased.

Manila, April 20.—Submission to American rule is the urgent advice of Emilio Aguinaldo to his countrymen in the Philippines. His long-expected manifesto has been issued, and throughout the brief document the voicing of desire for peace is uppermost. Aguinaldo frankly acknowledges that crushing of the insurrection is inevitable, pointing to his own capture as proof thereof, and then turns to the future with hope that the promises of the United States, whether explicit or implied, will be fulfilled in spirit as well as letter.

Text of the Manifesto.  
"I believe I am not in error," says Aguinaldo in opening his manifesto, "in presuming that the unhappy fate to which my adverse fortune has led me is not a surprise to those who have been familiar with the progress of the war. The lessons taught with a full meaning, and which have recently come to my knowledge, suggest with irresistible force that a complete termination of hostilities and lasting peace are not only desirable, but absolutely essential to the welfare of the Philippine islands. The Filipinos have never been dismayed at their weakness nor have they faltered in following the path pointed out by their fortitude and courage. The time has come, however, in which they find their advance along this path to be impeded by an irresistible force, which, while it restrains them, yet enlightens their minds and opens to them another course, presenting them the cause of peace."

Under the American Banner.  
"This cause has been joyfully embraced by the majority of my fellow countrymen, who have already united around the glorious sovereign banner of the United States. In this banner they repose their trust and belief that under its protection the Filipino people will attain all those promised liberties which they are beginning to enjoy. The country has declared unmitigably in favor of peace. So be it. There has been enough blood, enough tears and enough desolation. This wish cannot be ignored by the men still in arms if they are animated by a desire to serve our noble people, which has thus clearly manifested its will. So do I respect this will now that it is known to me."

Hoods Voice of Philippines.  
"After mature deliberation I resolutely proclaim to the world that I cannot refuse to heed the voice of the people longing for peace, nor the lamentations of thousands of families yearning to see their dear ones enjoying the liberty and the promised generosity of the great American nation. By acknowledging and accepting the sovereignty of the United States throughout the Philippine archipelago, as I now do and without any reservation whatsoever, I believe that I am serving thee, my beloved country. May happiness be thine."

To signalize this important step in the pacification of the country, General MacArthur orders the release, on swearing allegiance to the United States, of 1,000 insurgent prisoners.

Satisfaction in Washington.  
Washington, April 20.—Officials in Washington are greatly pleased with the terms of Aguinaldo's manifesto. They point out it contains not a single word which implies any reservation.

## TOO MUCH

Exercise is as bad as too little for the growing girl. It is very easy for her to overdo, and this is especially dangerous at that critical period of a young girl's life when she crosses the line of womanhood. It is not an uncommon thing to lay the foundation for years of after misery by neglect of necessary precautions at the first "change of life."

The use of Dr. Pierce's Favorite Prescription not only establishes regularity, but it gives health to the entire womanly organism. It is the best medicine for diseases peculiar to women because it cures the causes of disease completely and permanently.

"Favorite Prescription" contains no alcohol, neither opium, cocaine nor any other narcotic. It cannot disagree with the most delicate constitution.

For a number of months I suffered with female trouble," writes Miss Agnes McGowan, of 122 Bank Street, West, D. C. "I tried various remedies, but none seemed to do me any permanent good. The doctors said it was the worst case of internal trouble they ever had. I decided to write to you for help. I received a very encouraging reply, and commenced treatment at once. I had not used your 'Favorite Prescription' a week before I began to feel better, and, as continued, my health gradually improved, and is improving every day."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

Back from the Philippines.

San Francisco, April 20.—The Twenty-ninth and Thirty-second regiments, United States Volunteers, arrived here today from the Philippines on the transport Grant. The vessel also brought company F of the Twenty-sixth Volunteer Infantry, 123 sick soldiers and eighty cabin passengers. In all there are 1,700 soldiers on board. During the voyage there were three deaths among the soldiers in the hospital. The Grant made the run from Manila in twenty-five days, eighteen hours, and from Nagasaki in twenty days, eighteen hours.

Pierpont Morgan Is in Paris.  
Paris, April 20.—J. Pierpont Morgan arrived in Paris last night accompanied by his son and grandchildren.

Mrs. Day Somewhat Better.  
Canton, O., April 20.—The condition of Mrs. Day, wife of Judge William R. Day, continues more favorable. The improved condition reported last evening continued during the night. She rested well and this morning the physicians pronounced her somewhat better. The improvement is not yet sufficient to justify sanguine hopes, but is of an encouraging nature.

Safe-Blowers Do Daring Work.  
Chicago, April 20.—After climbing a telegraph pole to gain an entrance to the offices of the Metropolitan Life Insurance company, No. 90 Ashland boulevard, burglars blew open the safe in the building and carried away \$750 in currency and more than \$60 worth of checks.

Outcry Against New War Taxes.  
London, April 20.—The greatest outcry against the new war taxes is coming from the coal centers. At a meeting held at Newcastle a resolution was adopted recommending that the tax should not apply to existing contracts.

Lynchings Is Threatened.  
Oklahoma City, O. T., April 20.—George Oglesby and Louis Woodrow, negroes, who beat Thomas H. Pemberton of Kentucky to death with a club near Weatherford, O. T., are under arrest. Oglesby was arrested here last night and Woodrow was arrested at Enid, O. T., yesterday after a desperate resistance. The murder was committed for robbery. The feeling at Weatherford is so strong that a mob may be formed and the men lynched.

Oil Men Threaten Lynching.  
Hartford City, Ind., April 20.—It is reported that oil men in the Keystone field are forming a mob to attack the Adams County jail and lynch Barney McKinnick, who is charged with assaulting the young daughter of Louis Powell, employed in that field. McKinnick was removed to Decatur for safe keeping. He denied that he is guilty.

Starts a New Steel Plant.  
Detroit, Mich., April 20.—Final arrangements were made at the Russell house for the building of a steel and iron-plant at Sault Ste. Marie (Canadian side) which will employ 10,000 men and be capitalized at \$50,000,000. The plant will be operated in connection with the great power canal being constructed at the Canadian Soo by F. H. Clergue and his associates of the Soo Power Corporation. The financing of the project is in the hands of Alfred R. Harvey of Liverpool, a well-known English promoter, who has enlisted American, English and Canadian capital.

## City Accounts Are Short.

Cleveland, O., April 20.—As a result of the investigation ordered by Mayor Johnson into the books and records of the city clerk's office a second shortage of about \$1,500 was found in the accounts of ex-License Clerk Rowbottom. This does not include the \$1,566 which Rowbottom took in 1890 and returned two years later. The mayor has ordered the probing kept up.

Big Clean-Up at Dawson.  
Seattle, Wash., April 20.—James H. Arden of one of the mining companies of Dawson came to this city today on his way to London, England. He said that the clean-up this year in the Dawson camp from a conservative estimate would amount to \$30,000,000, making it the biggest output in the history of the Klondike.

Jealousy Leads to Tragedy.  
Milton, Cal., April 20.—John H. Gorman, foreman of the Union copper mine, last night shot and killed George B. McCarthy, a prominent young man of Copperopolis, and then blew himself to pieces with giant powder. Both men were attentive to the same woman and jealousy is supposed to have been the cause of the tragedy.

## DOES NOT DISAPPOINT.

The New Discovery for Catarrh Seems to Possess Remarkable Merit.

A new catarrh cure has recently appeared which so far as tested has been remarkably successful in curing all forms of catarrh, whether in the head, throat, bronchial tubes, or in stomach and liver.

The remedy is in tablet form, pleasant and convenient to take and no special secrecy is maintained as to what it contains, the tablet being a scientific combination of Guaiacol, Eucalyptol, Sanguinaria, Hydrastin and similar valuable and harmless antiseptics.

The safe and effective catarrh cure may be found at any drug store under the name of Stuart's Catarrh Tablets.

Whether the catarrh is located in the nose, throat, bronchial tubes or stomach, the tablets seem to act with equal success, removing the stuffy feeling in head and nose, clearing the mucous membrane of throat and trachea from catarrhal secretions, which cause the tickling, coughing, hawking and gagging so annoying to every catarrh sufferer.

Nasal catarrh generally leads to ulceration in some cases to such an extent as to destroy the nose entirely and in many old cases of catarrh the bones of the head become diseased. Nasal catarrh gradually extends to the throat and bronchial tubes and very often to the stomach, causing that very obstinate trouble, catarrh of the stomach.

Catarrh is a systemic poison, inherent in the blood, and local washes, douches, salves, inhalers and sprays can have no effect on the real cause of the disease. An internal remedy which acts upon the blood is the only rational treatment and Stuart's Catarrh Tablets is the safest of all internal remedies, as well as the most convenient and satisfactory from a medical standpoint.

Dr. Eaton recently stated that he had successfully used Stuart's Catarrh Tablets in chronic cases, even where the ulceration had extended so far as to destroy the septum of the nose. He says, "I am pleasantly surprised almost every day by the excellent results from Stuart's Catarrh Tablets. It is remarkable how effectively they remove the excessive secretion and bring about a healthy condition of the mucous membranes of the nose, throat and stomach."

All druggists sell complete treatment of the tablets at 50 cents and a little book giving the symptoms and causes of the various forms of catarrh will be mailed free by addressing F. A. Stuart Co., Marshall, Mich.

## Tornado Wrecks Houses.

Miami, Fla., April 20.—The hamlet of Eiscayne, seven miles north of here, was struck by a tornado this morning. Several houses were demolished, John Peters was fatally injured, and William Cook seriously hurt. Peters is a prosperous farmer. His house was completely demolished. The main part of the building was carried about a hundred yards and dashed to pieces. Peters' head is badly crushed, and his body was pierced by pieces of wood. Cook was thrown fifty feet, but only slightly injured. Every forest tree in the path of the tornado was torn up by the roots.

## Religious Riots in Brazil.

Rio Janeiro, April 20.—Serious religious riots have occurred at Niteroy as a result of an evangelical campaign against the Catholic, and of recent anti-Catholic demonstrations consequent upon the presentation of the Spanish drama, "Electra." The feeling between the religious elements has been particularly bitter in Niteroy. While a clergyman was preaching in the evangelical temple yesterday Catholics made an attack upon the edifice, intending to stop the services. Serious fighting followed, and many of those engaged were wounded.

## LIU ORDERED TO WITHDRAW

Kwang Hsu Issues Edict to Prevent Conflict.

NEW TROUBLE IN CHEKIANG.

Believed That Germans and French Will Invade Shansi—Russians Now Enabled to Throw Troops Into Manchuria Without Using the Sea.

London, April 20.—The Shanghai correspondent of the Morning Post says that in view of the resolution of the Germans and French to drive the Chinese troops from Chihli into Shansi province Li Hung Chang memorialized the Emperor, with the result that his majesty yesterday issued an edict ordering General Liu to withdraw his troops over the border. The Emperor simultaneously telegraphed to Li Hung Chang, instructing him to inform Count von Waldersee of the edict and to request him not to send foreign troops into Shansi. Nevertheless it is believed that the Germans and perhaps the French will occupy Taiyuen-Fu, the capital of Shansi. The correspondent adds that railway communication between Vladivostok and Port Arthur is practically complete, and that Russia is thus enabled to throw troops into Manchuria without using the sea. A dispatch to the Standard from Shanghai says that trouble is reported in the province of Chekiang in connection with the suspension of the literary examinations. Threats have been made to burn the official yamens and to expel the mandarins. The movement will probably spread. The students deny that they are responsible for the trouble.

Ordered to Attack Liu.  
Cologne, April 20.—A dispatch to the Gazette from Peking says that three companies of the East Asiatic, with Major Muhlenfeld and the entire garrison at Paoing-Fu, with the exception of 400 men, marched out Wednesday under Generals von Lessel and Ketteler to the Hual-Lu passes, orders having been issued to attack General Liu.

## In Bed He Weds Nurse.

St. Paul, Minn., April 20.—Mrs. Julian Whitman of St. Paul was married today at Spokane to F. R. Insinger, manager of the Holland Bank of that city, who is seriously ill with typhoid fever and who is being nursed at St. Luke's hospital by his bride. The ceremony took place at his bedside. The bride is the divorced wife of Alonzo J. Whitman, formerly state senator from Duluth, who has since become notorious as a swindler. He has just been convicted in New York on a charge of grand larceny for passing a bad check.

## Countervailing Duty Upheld.

New York, April 20.—The board of classification of the United States general appraisers today announced a decision in the Russian sugar case. The board, by a majority vote, holds that the United States government was justified in imposing a countervailing duty on Russian sugar. The opinion was written by Judge Somerville and General Appraiser Fischer concurs with him. Col. Tichenor writes a dissenting opinion.

## Counterfeiters' Molds Found.

Gibsonburg, O., April 20.—In tearing down the Bellevue house yesterday, counterfeiters' dies and molds were found. A few years ago this county was flooded with bogus half dollars, all dated 1827. Several hundred dollars in counterfeit was found. The Bellevue house was the oldest building in town.

## Nerves Wear Out

And grow weak and exhausted when not properly nourished, just as an engine loses its power when the fuel runs low. The loss of nervous power is seen in the failing health and the wasting form. It is felt in the aching head, the throbbing heart, the irritability, indigestion, restlessness and loss of sleep. Rebuild the worn-out nerves, rest the tired brain and add new fuel to the vital fires with the best of all tonics, Dr. Miles' Nervine.

"I was sick with typhoid and malarial fever for three months, and after I recovered from that I was left so weak and nervous that I could not work. I fairly shook all over, and in eating I could hardly hold a fork steady enough to feed myself. I started to take Dr. Miles' Nervine, and received immediate benefits. Three bottles of it cured me."

# GET STRONG

**Vinol Makes Weak People Strong.**

**WE GUARANTEE IT WILL DO SO.**

**WE KNOW OF NO TONIC OR RE-BUILDER LIKE IT.**

Vinol does create strength. We know that and have proved it in many instances.

The reason Vinol rejuvenates and strengthens a person is that it acts directly upon the stomach, strengthening and toning up this great vital organ and enabling it to obtain for itself, from the food that is taken into it, the elements which are required to make firm healthy flesh and muscle tissue, sound bone structure and pure healthy blood.

Vinol does this in a scientific way and is enabled to do it because it contains, dissolved in a delicate mild wine, in a highly concentrated state, the active principles of cod-liver oil.

Vinol does not contain any of the grease that formerly characterized cod-liver oil, hence is free from all the objectionable features which made it impossible for patients to take or retain that vile-smelling remedy into their stomachs.

Vinol in its favorable action upon the stomach and other organs of the body acts also in a beneficial way upon the nerves and brain, and will be found to be invaluable to brain workers as well as body workers.

The following letter is from a well-known author. It reads as follows: "I wish to acknowledge the receipt of the Vinol and testify to its great benefits. Since taking it I am much improved in health, and during the intense heat of last August I should not have been able to continue in my literary work if it had not been for the strengthening properties of Vinol. Yours in gratitude."—ELLA STARR, 108 W. 82d St., N. Y. City.

**We wish any one suffering from weakness, a demoralized condition of the nerves, or a susceptibility to wasting diseases, to call on us and hear what we have to say in regard to Vinol.**

**Try it on our recommendation, and if you find it does not do everything we claim for it, we will gladly refund to you the amount you have paid us.**

**Faints on Grave of Husband.**  
Port Huron, Mich., April 20.—Mrs. Charles Moak was found lying across her husband's grave in Lakeside Cemetery in an unconscious condition. It is presumed that during the night Mrs. Moak, who has been brooding over her husband's death, went to the cemetery and cried herself into a doze on the grave, finally becoming completely unconscious from the exposure. She is in a critical condition.

**Big Geyser in New Zealand.**  
Vancouver, B. C., April 20.—A new geyser has made its appearance at Lake Echo, Rotorua, New Zealand. It is described as a mass of boiling water; half an acre in extent, rising in a great dome from which a column of water and stones ascends 300 feet, while immense volumes of steam rise to the clouds and hot stones are thrown a great distance.

**Plan a New Road.**  
Cleveland, Ohio, March 8.—Cleveland attorneys, said to be acting for the Pennsylvania Railroad, have incorporated the Adena Railroad Company, with a capital of \$1,000,000, and will build a road twelve miles long, from Adena to Martin's Ferry, which will tap extensive coal fields near the Ohio River. Local railroad men say that the new road is a move on the part of the Pennsylvania to maintain its hold on Southern Ohio coal fields not already invaded by the Wheeling & Lake Erie Road. The incorporators refuse to tell who is interested in the new company besides themselves. None of them are moneyed men.

**Crusade for Better Conditions.**  
In an address before the Young Women's Christian association of New York Bishop Potter said the crusade for better physical and moral conditions was not confined to New York city, but was going on the world over. "I should, perhaps, except Boston," said the bishop, "which seems to exist in such an atmosphere of lofty virtue that it has no need for a John the Baptist crying in the wilderness."

**Thirty-Two Years on Bench.**  
The retirement of Judge James M. Smith from the bench of the Hamilton county (O.) circuit court a few days ago was made the occasion of a reception in his honor by the Hamilton County Bar association. Judge Smith's retirement from the circuit court marked the completion of thirty-two years on the bench. He served one term as probate judge, thirteen years on the bench of the common pleas court and sixteen years as a circuit court judge.

## \$50,000 CITY HALL; JANESVILLE BOOMS

(Continued From Page 1.)

tunity to announce that the manual training class at the high school had presented the mayor with a handsome gavel and he took this opportunity to express his thanks for the gift.

It took three ballots to elect a street commissioner N. Fredericks, the present incumbent, winning out in the third.

In the ballot for health officer Dr. George Fifield received a majority on the second ballot and was declared elected.

Edward Davies and Charles B. Conrad were the unanimous choice of the council for assessors in their respective sides of the river.

Patrick Riley was elected janitor for the ensuing year. C. V. Kerch was the unanimous choice for city engineer.

A report was received from the city engineer on the sewer work on South Third street. He reported that the order granting them permission to build a sewer on South Third street contained a clause that it should be built at a grade and under the plans furnished by the city engineer. He said that he had furnished them no plans and that they had the sewer about one half constructed. Alderman Gilkey moved that the communication be received and placed on file. Carried.

The city engineer's report on the establishment of a curb line on McKee boulevard was adopted.

Charles and Albert Schaller were given permission to construct a sewer on South Main street and H. J. Cunningham and others one on Clark street from Glen Etna to Main street. Alderman Fifield, chairman of the council committee, appointed to confer with the library board presented the report of the committee which was unanimously adopted.

To the Mayor and Common Council of the City of Janesville: The special committee to whom was referred the report of the board of directors of the Janesville public library, recommending the purchase of the site offered by Dr. E. F. Woods for the location of the public library, being lots 3 and 4, block 45, of the original plat of said city, at the sum of \$20,000.00 would respectfully report and recommend that the offer made by Dr. Woods for the sale of said premises at the price above named, be accepted, and that the said board of directors be authorized and directed to dispose of the buildings thereon situated at the best possible advantage.

Your committee would further report that we have secured a proposal from C. E. Bowles for the sale of lots 97 and 99 in Smith, Bailey & Stone's addition to said city at the sum of \$8,000.00 and would recommend that said offer be accepted and that a committee be appointed to procure suitable plans for the construction and erection of a city hall on said site to cost \$50,000.00, including the purchase of the site, with all convenient dispatch, so that said building may be completed during the present season, and to report the same to the council for its approval.

All of which is respectfully submitted.

F. E. FIFIELD,  
H. S. GILKEY,  
J. E. HUTCHINSON,  
F. H. KOTHMAN,  
W. A. MURRAY,  
Special Committee

On motion of Alderman Gilkey the mayor was instructed to borrow \$15,000 and to apply same on library and city hall sites until the necessary bonds could be issued.

Alderman Fifield introduced the following resolution, which was adopted:

Resolved, That the common council express its appreciation on behalf of the citizens of Janesville for the great interest taken by the late F. S. Eldred in the Janesville public library as shown by his most generous bequest in his last will and testament.

Resolved, That a copy of these resolutions be transmitted by the city clerk to Fanny E. Eldred.

The street commissioner was instructed to have a standard sidewalk built in front of lot 6, block 2, River-view Park.

## TOBACCO STANDS THE CURING TEST

An Experiment of Force Sweating a Quantity of the 1900 Wisconsin Crop.

Such a black eye has been given it and so much has been said about the 1900 crop of tobacco being liable to black rot and other damage caused by sweating that some of the prominent packers determined to give the tobacco a thorough test before rejecting it. The Wisconsin Tobacco Reporter speaking of the test held in Edgerton said:

An experiment of force sweating of a quantity of the 1900 Wisconsin crop, for the purpose of demonstrating the ability of this tobacco to stand the curing test, has lately been carried through by Mr. C. L. Culton with a result that will be highly pleasing to the packers in the west. For the purpose of making the test a thorough one Mr. Culton had shipped to a central warehouse in Edgerton portions of 16 different crops, embracing eight packings, including tobacco grown in as many different sections of the state which was put into a close room and heat turned on for several weeks. At times the temperature was allowed to reach as high as 90 degrees, and the tobacco given a severe sweating. When examined it was found that all the better grade types had passed through the curing state without any damage or blemish whatever. A few types of low grade that were not in good packing condition when placed, showing the only damage determined by the experiment. There was no indication of black rot, the injury most to be feared by packers of late years, which is the most assuring information that could have been told. The general character of the sweated tobacco was quite satisfactory.

Buyers are persistently pounding away at the remnants of last season's crop, with every prospect in view that it will be closely gathered in from growers hands before their operations close. Men are riding for all the different grades the crop affords and in some localities only scattering lots remain now unsold. Dealers having export orders have been industriously at work of late and a vast amount of cheap tobaccos have been moved the past few weeks. Some of the better grades are also being taken at very fair prices.

The American Tobacco Co's buyers have purchased about 5000c from growers in the vicinity of Stoughton during the week. In a moderate way old leaf is moving and dealers are receiving plenty of inquiries showing that a more reassuring tone prevails the market. C. L. Culton sold 2500c of '99 and F. S. Daines 1500c. H. W. Child is credited with buying a 2000c lot from a Janesville packer and 2000c of a McFarland local packer.

The first of the seed beds for another crop have been laid during the week, but many experienced growers prefer to wait till warmer weather before sowing their seed.

The shipments out of storage reach 11 car loads, 5380c from this state all points for the week past. Since last report 6000c of cigar leaf were exported from New York.

**Unknown Gaseous Substance Discovered.**  
Near Rio Grande city, Tex., an immense deposit of an unknown gaseous substance has been discovered. Pieces of it ignite quickly and give out a strong flame, which lasts for a remarkably long period. It is said by scientists that the substance is either an unknown mineral or ordinary clay highly charged with natural gas. In either case the value of the deposit as fuel is immense, as it covers many thousands of acres to a great depth.

## BOYS LISTEN TO THEO. ROOSEVELT

Vice President Tells Them to Stick to  
Their Work—How He Shot  
Mountain Lions.

New York, April 20.—"Stick to your work, boys. You owe it to yourselves to use what is in you. Never give up. If you do you'll sink, because you deserve it."

"Act square by others, as you expect them to act square by you."

"Never do anything cruel to a smaller boy or a girl. The brave man is always tender and kindly toward others."

"Boys, in life it should be as in a football game; don't play foul, but hit the line as hard as you know how."

Thus spoke Theodore Roosevelt, vice president of the United States, last night to seventy-five homeless boys in the West Side Boys' Home. Roosevelt's father was one of the founders of the home.

The vice president told the boys how he shot mountain lions in the west. The boys' eyes were like saucers.

"The mountain lions are like some men," said Roosevelt. "They have bad reputations, but they're not so bad as they are painted. The hunting dogs would follow a trail for hours and hours. There's perseverance for you! The fighting dogs would climb the trees after the lions. The lions would knock the dogs to the ground, whack! The dogs shook themselves and climbed the tree again. There's pluck for you!"

## KENTUCKY OUTLAWS GIVE UP.

Two of Ku-Klux Band Surrender, the Others Will Be Run Down.

Lexington, Ky., April 20.—Joe Johnson and John Potter of the Creed Potter and John Reynolds band of outlaws, for the capture of which a posse is being organized at Whitesburg by Tom Hollifield and others, surrendered today. They say the other members of the Ku-Klux will not give up, and that they were reinforced today by John Henry Mullins and a number of followers. Mullins killed David L. and John H. Craft two years ago. The expedition will start today.

## Memphis Appeals for Aid.

Memphis, Tenn., April 20.—At a conference yesterday Mayor Williams and Chief of Police Richards decided to call on St. Louis, Cincinnati, Chicago and New York for detectives to assist in taking care of visiting criminals during the visit of President McKinley and the Confederate reunion. The city is now overrun with thieves. The robbers who held up the March gambling house yesterday are still at large.

## A SOLDIER'S THOUGHTS.

It Wasn't the Pursuing Bullets That Worried Him.

Winston Spencer Churchill, who was war correspondent during the campaign in Africa, says that once, in the interests of the London Post, he promised to follow the scouts for a day. The English had made a rapid advance into the heart of the Boer position, disturbing and alarming their adversaries, who attempted to outflank the outflanking cavalry, and rode into the open to make for a white stone kopje on the British right.

An English soldier rode up to his general.

"Sir," he asked, "may we cut them off? I think we can just do it."

The scouts pricked up their ears. The general reflected.

"All right," he said. "You may try."

It was a race from the beginning. They reached the kopje to find a squad of Boers there before them.

"Too late!" said the British leader steadily. "Back to the other kopje! Gallop!"

"Then," says Mr. Churchill, "the musketry crashed out, and the swish and whir of bullets filled the air. I dismounted. Now I put my foot into the stirrup. The horse, terrified at the firing, plunged wildly. The saddle turned, and the animal broke away."

"Most of the scouts were already 200 yards off. I was alone, on foot, at the closest range, a mile from cover of any kind. I turned and ran for my life from the Boer marksmen, and I thought as I ran, 'Here at last I take it.'"

"Suddenly as I fled I saw a scout. He came from the left across my track, a tall man on a pale horse. 'Give me a stirrup!' I shouted."

"To my surprise he stopped at once. 'Yes,' he said shortly."

"In a moment I found myself behind him on the saddle. Then we rode. I put my arms about him to catch a grip of the mane. My hand dabbled in blood. The horse was hard hit, but, like a gallant beast, he extended himself nobly. The pursuing bullets piped and whistled overhead, but the range was growing longer."

"Don't be frightened," said my rescuer. "They won't hit you." Then he groaned. "My poor horse! Oh, my poor horse! Shot with an explosive bullet! Oh, my poor horse!"

"Never mind," said; 'you have saved my life.'"

"Ah," he rejoined, "but it's the horse I'm thinking about!"

"That was the whole of our conversation."

## Hat For Horses.

The American truck driver who some years ago took an old wide brim straw hat, cut two holes in the brim and then with it humanely protected his horse's head from the fierce rays of a summer sun little thought that his idea would be adopted later in England and become the foundation of a lucrative business. That there was evidently a market for such a device is shown in the fact that over 5,000 of them were sold last season alone, and the trade next summer is expected to go far ahead of last year. The firm making them is understood to do quite a large export business as well as domestic trade.—Millinery Trade Review.
